## Resumen Profesional

Highly experienced Software Engineer with a 10 year track record in developing robust software and web applications. Proficient in a wide stack including Microsoft technologies (**Dotnet, NetCore, SQL Server**), a broad range of JavaScript tools (**Node.js, Express.js, Angular, React, Next.js, Nest.js**), and leveraging cloud platforms (**AWS, Azure**). My experience spans multiple industries, equipping me with the skills to address diverse business challenges and deliver optimal technological outcomes. I am committed to knowledge sharing and fostering best practices in technology utilization within a team.

## Habilidades Funcionales

- |                      |                |                     |
|----------------------|----------------|---------------------|
| • HTML               | • Dotnet (C#)  | • NetCore (C#)      |
| • Javascript         | • Typescript   | • Python            |
| • Flask              | • Node         | • React             |
| • Redux              | • MVC 5        | • Next.js           |
| • Nest.js            | • Express.js   | • GraphQL (NetCore) |
| • AWS RDS            | • AWS DMS      | • AWS SQS           |
| • AWS S3             | • AWS DynamoDB | • AWS Lambda        |
| • Bootstrap          | • Material     | • CSS/SCSS          |
| • Azure SQL Database | • SQL Server   | • PostgreSQL        |
| • OracleSQL          | • Scrum        | • Git               |
| • GitHub             | • GitFlow      | • CI/CD             |
| • Jenkins Pipeline   | • Sonarqube    | • Jest              |
| • Jasmine            | • Xunit        | • Nunit             |
| • MsTest             |                |                     |

## Experiencia Profesional

Pentavida

Hibrido , June 2023 - June 2025

Software Engineer

- DevOps activities (**ci/cd pipeline configuration, legacy systems configuration and deployment**)
- Software Architecture solution development for develop teams
- Frontend development (**Angular 17 y 18, MVC4, Bootstrap**)
- Backend development (**Net4.8, Net8, Python**)
- Data modeling and databases support (**PostgreSQL, SQL server**)
- Provide support to company systems
- DevOps using **Git (on premise, gitflow)** and **Jenkins**
- Hybrid methodology using Kanban table and some scrum ceremonies(4 members team)

## FullStack Developer

- Frontend development (**React, Next.js, MVC4, Bootstrap, SCSS**)
- Backend development (**Dotnet, Nest.js, express.js, aws lambda, serveless python**)
- Data modeling and databases support (**PostgreSQL, SQL server, aws RDS, aws DMS**)
- Chapter Lead of Scrum Chapter
- DevOps using **Github (actions, gitflow)** and **Docker**
- Scrum methodology (5 members team in 2 weeks sprints setup)

CitiGroup Latam Kibernetum

Remoto , June 2020 - October 2020

## Software Engineer

- Provide support to company legacy systems (**Dotnet, Winforms, MVC4**)
- DevOps using **Bitbucket**
- Scrum methodology (3 members team in 2 weeks sprints setup)

Brinks Chile Xinerlink

Oficina , September 2019 - February 2020

## Software Engineer

- Libraries development (**Dotnet**)
- Electronic devices Setup and Integration
- FullStack development (**Dotnet, MVC4, WinForms, Bootstrap, SQL Server**)
- Scrum methodology (4 members team in 2 weeks sprints setup)

SMU S.A. Trebol-IT

Oficina , April 2019 - June 2019

## Developer

- Maintenance and support to company systems (**SQL server, WCF, Dotnet API REST**)
- DevOps using **Jenkins**
- Waterfall methodology

E-Cert Chile Kibernetum

Oficina , January 2019 - March 2019

## FullStack Developer

- FullStack development (**Dotnet, MVC4, JQuery, Bootstrap, SQL Server**)
- Data modeling and databases support (**SQL server**)
- Scrum methodology (5 members team in 2 weeks sprints setup)

Servicio Agrícola y Ganadero Connectis

Oficina , September 2018 - December 2018

## Developer

- Maintenance and support to company systems (**Dotnet, SQL server, JQuery**)
- Data modeling and databases support (**SQL server**)
- ITIL methodology for Service Desk (4 members team)

Anticipa

Oficina , November 2017 - September 2018

## FullStack Developer

- FullStack development (**Dotnet, MVC4, WCF, JQuery, JS, Bootstrap, CSS, SQL Server**)
- Project Manager support
- Multiple clients Outsourcing
- Business process management (BPM)
- Waterfall methodology

Ministerio de Vivienda y Urbanismo Emergya Chile

Oficina , December 2016 - August 2017

## Developer

- FullStack development (**Dotnet, MVC4, WCF, JQuery, JS, Bootstrap, CSS, SQL Server**)
- Project Manager support
- Waterfall methodology

## Developer

- FullStack development (**Dotnet, MVC4, Oracle SQL**)
- Libraries development (**Dotnet**)
- Electronic devices Setup and Integration
- Waterfall methodology

## Certificados

---

Microsoft Certified Azure Data Fundamentals

Microsoft Learn, 2023

Curso Inglés Intermedio Para Interacciones Laborales - Curso 2

Pontificia Universidad Católica de Chile, 2023

## Educación

---

Ingeniero en Informática

Duoc UC, 2017

Analista Programador Computacional

Duoc UC, 2015

## Lenguajes

---

Inglés

B2 , Pontificia Universidad Católica de Chile
